

Recognized as a leading wholesale distributor of plumbing fixtures and supplies for kitchen remodeling, bathroom remodeling or new construction, Kitchens & Baths by Briggs is a 110-year-old company with outstanding showrooms in its native Omaha and here in Kansas City.

This respected company, known for its

They also have a vast collection of beautiful boutique items to complement any design project.

Lynn Middleton, Showroom Manager, can barely contain her enthusiasm for what Kitchens & Baths by Briggs has to offer the metro area. As the largest decorative plumbing showroom in the Heartland,

focus on premier high-end products and materials and unparalleled customer service, carries a wide variety of high quality sinks, faucets, fixtures and accessories to create and remodel any kitchen or bathroom.

there is literally something for practically every new construction or home remodeling project under one roof.

"We love what we do and are excited to help our clients," she smiled. "We are a

wholesale company with a focus on working with high-end designers and remodelers, as well as some builders. We specialize in 'custom-custom' products for higher-end projects."

Kitchens & Baths by Briggs offers an extensive collection of quality products from Kohler, Bain Ultra, Hansgrohe, Rohl, Moen and many other well-known brands. The company is also an exclusive dealer for Crosswater and The Galley. Their vast array of selections will satisfy any style,

from traditional to contemporary and anything in between.

Not only does Kitchens & Baths by Briggs have an impressive showroom with premier products, the experienced and educated team is always on hand to help clients through every step of the process. They will walk through the process based on the design plan, showing various products and working to understand the exact needs of each client while simultaneously ensuring everything

coordinates and is both functional and beautiful. These trusted experts can help clients fully envision the desired space.

"We also work closely with the contractors to make sure everything is properly installed and that all parts and pieces are together," emphasized Middleton. "We guide and educate our customers in the right way."

PRO TIP...

When designing your master bath think outside the standard layout. Use free standing tubs with therapies, such as Bain Ultra for health and optimum relaxation. Install your tub at an interesting angle, no need to look at a wall when you can see outside. Vanity pieces that look more like furniture create a custom feel and dramatic lighting will enhance the spa feel of your space. Warm your floors for comfort in the winter months. You want to create a room that is designed for you.

Their 5,000 square foot showroom is incredibly easy to navigate, too, and with three interior designers and one industrial designer on staff, clients are assured that their visit will be productive, educational and above all, fun.

Kitchens & Baths by Briggs always makes sure to stay on top of its game within the design industry and to that end Middleton is an ASID board member for the Missouri West/Kansas chapter and an active member of NARI.

In addition to all of the company's plumbing fixtures for the kitchen and the bathroom, Kitchens & Baths by Briggs is

excited to soon carry lighting fixtures. When you visit the Kansas City showroom, you will see firsthand the fixtures, faucets and accessories for your projects and all you have to do to get started is call to make an appointment with one of their knowledgeable showroom consultants who will be more than happy to assist throughout the selection process. Before coming into the showroom, clients can also view products on the company's web site to get ideas and inspiration.

"We are extremely proud of our stellar customer service," said Middleton. ■
