

Natural stone countertops certainly have a lot to say. It's up to you, however, to determine the course of the conversation by considering the right color

want your countertops to express?

If you are uncertain, or if you simply want to explore the bountiful options available — then consider Dimensional Stoneworks.

and finish for your project. Kitchen (and bathroom) countertops certainly have a message to convey, so what is it you

Whether you want your countertops to become a work of art or if you simply want them for long-lasting durability to keep

pace with your busy and active family, the experts at Dimensional Stoneworks have precisely what you need — and want!

Dimensional Stoneworks has been serving the greater Kansas City area for more than two decades and prides itself on quality workmanship and keen attention to customer service. As premier custom fabricators of all-natural stone and quartz products, the experts at Dimensional Stoneworks can assist with a variety of projects including custom remodels, new home construction, and

commercial projects. All fabrication is completed in-house, assuring full support through the entire process.

Among the materials offered by Dimensional Stoneworks are granite, marble, quartzite, travertine, and quartz

product. The company's expansive showroom maintains a selection of stock granite and a wide variety of quartz to

suit every size of project. Hand selection of slabs is done at our off site fabrication shop and the local slab suppliers.

"Our state of the art fabrication tooling and laser digital templating system results in the highest quality and

extremely accurate finished product," notes Sheryl Calvin, inside sales representative. "Our experienced design and sales staff can assist with all product selections and details from start to finish!"

Products such as Quartzite, a natural quarried product, are great alternatives for those seeking the simplistic style of a marble look without the maintenance and characteristics of marble. Although a natural stone comes at a higher price point, Quartzite brings an authentic quality to the space and is a durable and suitable choice for kitchen surfaces.

Dimensional Stoneworks, a premier custom fabricator, can fulfill all project needs from the most simple to the most complex designs in today's world. ■

TRENDING...

Today's granite styles are more subtle and subdued, leaning towards whites and grays, as opposed to darker, busier styles.
